Publishing Beyond Journals:
An author panel with pediatric faculty

Books are an overlooked opportunity to expand publications. They target broad audiences, and are an important avenue for sharing insights from your field. Please join us for a round-table and Q&A session with faculty book authors and editors. Topics will cover the writing and publication process, and the different pathways to publications.

November 6, 12:00 to 1:00 pm
Hanes House Conference Room, 131
